

Eric Clouthier of Harvey Building Products is Named Regional Safety Professional of the Year By American Society of Safety Engineers

Waltham, MA – Eric J. Clouthier, safety engineer at Harvey Building Products, with responsibility for safety, health and environmental functions at all 38 Harvey Building Products locations across the Northeast, recently received the Region VIII Safety Professional of the Year (SPY) Award from the American Society of Safety Engineers (ASSE). Eight Regional SPY Awards are voted on by peers and given annually to “the most outstanding safety professionals for contributions to service and leadership within their regions and chapters, and their commitment to protecting people, property and the environment,” according to the ASSE.

“That Eric was recognized by his peers for his outstanding achievements and contributions is a testament to his dedication and work ethic,” says Tom Russell, senior vice president, manufacturing, Harvey Building Products. “His efforts every day make our company a better place to work, and his award exemplifies the importance Harvey Building Products places on the safety of our employees.” A member of the Harvey Building Products team for more than four years, Eric works at Harvey’s state-of-the-art manufacturing facility in Londonderry, NH, but travels regularly to the company’s two manufacturing facilities in Dartmouth and Springfield, MA.

Mr. Clouthier and his seven fellow honorees from across the country were recognized at the ASSE annual meeting in late June. Region VIII is composed of ASSE chapters in Connecticut, Massachusetts, Maine, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island and Vermont. Each of the eight regions is comprised of 15 to 20 chapters, whose members volunteer their time to promote work safety and the safety, health and environment (SH&E) profession.

Founded in 1911, the Des Plaines, IL-based ASSE is the largest and oldest professional safety organization and is committed to protecting people, property and the environment. Its more than 32,000 occupational safety, health and environmental professional members lead, manage, supervise, research and consult on safety, health, transportation and environmental issues in all industries, government, labor, health care and education. For more information, visit www.asse.org.

Harvey Building Products, a leading manufacturer of windows, doors and patio rooms, and a premier wholesale distributor of quality building products in the Northeast, has been serving professional contractors since 1961. Harvey continues to expand its investment in green manufacturing, distribution and product development and is an ENERGY STAR® partner. A privately held company, Harvey operates manufacturing

facilities, branch warehouses and public product showrooms throughout the Northeast region. For more information, visit Harvey Building Products at www.harveybp.com.
