## **HARVEY OPENS PRODUCT SHOWROOM IN SOUTHEASTERN CONNECTICUT**

### **New Facility Extends Strength and Presence of Region's Leading Manufacturer/Distributor of Windows, Doors and Building Products**

**Waltham, Mass. (May 9, 2008)** — Continuing its measured growth throughout the Northeast, Harvey will open a combined branch warehouse and product showroom in greater New London, Connecticut on Monday, May 12<sup>th</sup>. The facility, located at 1096 Hartford Turnpike in nearby Waterford, marks the company's 11<sup>th</sup> product showroom, and its sixth branch location in Connecticut.

“Harvey is committed to being the best independent manufacturer and wholesale distributor, providing quality products and services to building and remodeling professionals. With the opening of our newest facility in the New London area, we look forward to extending that commitment to professional contractors and homeowners in southeastern Connecticut, from Killingly to Colchester to the north, and Stonington to Old Lyme along the coast,” said Vinnie Walsh, vice president of warehouse operations. “Placed between our existing East Haven, CT and Lincoln, RI branch warehouses and product showrooms, a New London presence makes it easier to respond in a timely manner to the needs of coastal Connecticut and to establish and maintain mutually beneficial, long-term relationships with professional partners and customers in the region. And we are especially excited to increase our customer support during this challenging period when they need it most.”

Although Harvey sells exclusively to building industry professionals, the product showrooms afford homeowners the opportunity to see firsthand what Harvey has stood for over 45 years — a wide range of products that enhance the home; up-to-date technology for comfort and energy efficiency; and solid, well-made, long-lasting products designed to endure the highs and lows of

northeast weather. With the opening of the New London branch warehouse and showroom, Harvey will operate 34 facilities in New England, New York and Pennsylvania.

The Waterford/New London facility, which broke ground in August, 2007, is a 73,000-square-foot combined branch warehouse and product showroom. Gregory J. O'Connor Associates provided the architectural design, with building services being handled by R.P. Masiello Inc. and scores of local contractors in several building trades. In total, 47 jobs were generated through the facility's construction, and 11 new positions were created in staffing the facility.

Harvey, a leading manufacturer of windows, doors and patio rooms, and a premier wholesale distributor of quality building products in the Northeast, has been serving professional contractors since 1961. A privately held company headquartered in Waltham, Mass., Harvey operates manufacturing facilities, branch warehouses and public product showrooms throughout the Northeast region.
